

Solar Panel Kits

with 200 watt regulator

SARGENT
wired for innovation

This range of monocrystalline solar panel kits are ideally suited to leisure applications, with their rigid metal framed construction and high efficiency output. The aerodynamic mounting feet help reduce wind noise and accumulation of dirt under the panel. The full fitting kit includes mounting feet, roof cable entry gland, connecting cable, fixings and solar regulator.

Dimensions in blue include mounting feet

Specification	16500	16501	16630
Peak Power (Pmax)	80W	100W	120W
Voltage (Vmp)	18.28V	19.08V	18.90V
Current (Imp)	4.39A	5.28A	6.35A
O/C Voltage (Voc)	21.99V	22.75V	22.80V
S/C Current (Isc)	4.69A	6.02A	6.66A
Dimensions (mm)	1010x534x35	1170x534x35	1115x670x35
Weight (Kg)	6.1	7.0	8.3
Cable length (metres)	3.0	3.0	3.0

Includes 200 watt solar regulator suitable for most battery types including:-
Flooded, Gel & AGM

- Output power available from 80 to 120 Watts
- Robust metal framed construction - protects cells against damage
- Full fitting kit included - for a rapid, professional installation
- Durable tempered glass - protects against hail and rain
- Weatherproof junction box - rated to IP66
